\*Expanding in 2014 but using an alternative to traditional expansion

\*\*Open Debate means a state Governor has made recent public statements or at least one chamber of the state legislature has passed a Medicaid expansion bill.

\*\*\*MA had a State Exchange which was not working, so in May 2014 they replaced it temporarily with a 3<sup>rd</sup>-party Exchange. MA has said it wants to have a State Exchange but plans to use the Federal Exchange in 2015. The court decision in [Halbig v Burwell](#) could change that.
